Phoenix FS2240K/FS2240E Series

Excel Fire File

Phoenix Fire Files have been engineered to withstand temperatures in excess of 1050°C for 90 minutes.

Available in standard two or four drawer versions, all our files feature automatic locking with a single security lock acting on all drawers. Each drawer may be isolated to provide a combination of locked and unlocked drawers at any one time.

Also available as a combination 'Mixed Media File'. Data media such as computer disks and tapes require added protection from heat and moisture, extending the firefiles capability to cater for this requirement is the media chest. This unique data protection unit, fitting snugly into the bottom drawer, provides for ease of use and ensures maximum protection for your valuable data.

FEATURES

- 1 Insulation is provided by the unique light weight Styronite F insulation material.
- 2 All steel is electrolytic zinc coated to provide for an extended life.
- 3 Applied on top of the quality urethane epoxy primer is a durable urethane hammertone paint. This combination provides for a brighter, smoother and longer lasting finish that resists scratching or marking.
- 4 Hanging rails are adjustable to accommodate foolscap, A4 and A5 files.
- 5 Heavy duty slide rails allow the drawer to move back and forth smoothly while carrying up to a massive 50kg of filing.
- 6 Locking can be by high security key lock, user friendly electronic lock or optional fingerprint lock.
- 7 Recessed handle is neat, easy to use and fitted with index card.
- 8 Each drawer is individually insulated for better fire protection.
- 9 Tight construction of body and drawer prevent smoke and heat damage to the contents.
